

Company Profile

About I-Evolve Technology Services

I-Evolve is a business technology consultant and cloud computing solutions provider headquartered in Buffalo, New York. The company has a strong presence in Western New York but services all of North America. Leading the industry in delivering cloud-based services, I-Evolve's strategic approach combines the use of remote technology and automated software management and provisioning systems. I-Evolve solutions enable customers to focus on their core business while I-Evolve ensures the quality of their IT and Voice infrastructure.

Through our consultative approach, we tailor our services to fit your unique needs. Your business needs to know that the tools employees use day in and day out are up and running. We'll help you increase productivity and cut downtime. We can assist you with all your technology procurement needs – our client base and combined purchasing power gives you preferred pricing and ultimate customer service from our exclusive sourcing partner.

Data Center located in Amherst, NY

Why I-Evolve?

<i>Our Mission</i>	<i>Values</i>	<i>Legacy of Success</i>
<p>Our mission is to be the technology solutions consultant of choice for each of our clients by understanding the unique business challenges of their organizations. Working with our clients as a partner, rather than a vendor, we craft best-of-class technology solutions that deliver increased efficiency, performance and security so that they can be more competitive in their marketplace.</p>	<p>Our business philosophy is based on integrity, enthusiasm, respect, growth, quality, and service. These values guide the way we manage our business and the way we service our clients.</p>	<ul style="list-style-type: none"> • #1 on Fast Track 50 • Best Places To Work • Amherst Chamber – Business of the Year • infoTech Niagara – Best Success

Our Services

 Cloud Servers	<p>Our cloud-enabled i-VServer allows you to scale your computing requirements up or down in minutes without the up-front capital expenditure required for physical servers.</p>
 Cloud Desktops	<p>Our cloud-enabled i-VDesktop will dramatically improve your business agility, bolster your workforce mobility and productivity, and significantly reduce your desktop costs.</p>
 Cloud VoIP	<p>Our innovative business-class i-Communicate solution can help transform your company's communications simply, effectively and affordably.</p>
 Onsite & Offsite Data Backup & Recovery	<p>Our i-Standby solution provides a robust backup and disaster recovery protocol that addresses the multiple requirements of the backup, disaster recovery and business continuity needs of your business.</p>
 Offsite Data Backup	<p>Our i-Vault solution provides automatic, remote and secure file backups.</p>
 Managed Firewall	<p>Our i-Comply managed firewall solution serves as the first line of defense against cyber-attacks while forming the foundation necessary to protect your organization's data, network and critical assets from outside threats and intruders.</p>
 Network Monitoring	<p>Our i-Monitor solution provides remote monitoring and management that continuously monitors the stability and security of your IT network so you can maximize network uptime, increase operational efficiency and focus on your core business functions.</p>
 Email & Spam Protection	<p>Our i-Filter solution is the most powerful enterprise class anti-spam solution available, providing efficient filtering of spam and viruses so that you feel safe knowing you're protected from attack.</p>
 Web Services	<p>Our i-Content solution is a comprehensive website design, development, hosting and content management system (CMS) that makes it easy for your staff to manage your website without the need to call us every time you need to make a change.</p>
 Internet Services	<p>Our managed Tier 1 internet service is built on a robust, enterprise based core infrastructure offering fast, reliable, secure and scalable internet for your business.</p>
 Email Marketing	<p>Our email marketing service contains a full set of features designed to help you manage and analyze every aspect of your customer, member or fan email outreach.</p>
 Professional Services	<p>Our primary focus is not as a reseller of technology products but as a trusted technology advisor who diligently concentrates on and develops comprehensive solutions to meet the needs of your organization.</p>
